Cowan Signs BEE Status level : A level THREE contributor to B-BBEE.

19 years of successfully creating customised branding and signage products for our very satisfied customers.

We have grown from small beginnings to the successful highly respected company we are today, due to our hands on management approach and total commitment to our staff and clients.

Owners Dieter Beier , Helena and Michelle Cowan make every branding dream a reality. With positive thinking, anything can happen.

It is our objective to engage in a continuous improvement and development programme, which provides customers with reliable product quality and service at competitive prices.

We continually strive to meet the highest expectations of your needs. No job too big or small we do it all...

TESTIMONIALS

“ Just a quick word to say thank you for the years of quick and impeccable service that we have received from your company. As a five star venue we expect only the best from our suppliers, you not only deliver on this but on many occasions excel in your quick turnaround times and exceptional quality.

Charles Winson, *Gallagher Convention Centre*

“ We at Elliott Mobility have utilized your company for the past two years and have found your company to be effective and efficient, all our orders on time every time. PROFESSIONAL SERVICE ON TIME EVERY TIME.

Flynn van Heerden, *Elliott Mobility*

Brilliant colour printing ideal for enlargements of fine art, photography, or mural - size graphics, including ability to reproduce photographic quality. We can print on vinyl, PVC banner material, contra-vision (perforated vinyl to see through from inside), poster paper. We can print customised small stickers, license disks, full colour banners, full vehicle wraps, building decals, high quality posters, magnetic etc... All printing is UV coated so no fading will occur. We have a high specialised application team who does country wide application on all full colour printing. From building walls to aeroplanes.

The most common material that we use for outdoor signage is Chromadek Steel which is mounted on a square tube frame. We supply a full in-house Chromadek Sign printing solution with lamination. Be noticed by all passing traffic and potential customers. Poles, frames and installation.

The structure of Chromadek signs is guaranteed for 5 years. As for full colour digital signage board printing on Chromadek, the printing will start to fade after 24 - 36 months. Chromadek signs that were made with the highest quality cast vinyl will last up to 10 years. It is statistically proven that the average business in South Africa changes information such as its name, physical address, postal address and telephone numbers every 20 months, so it is not advised to consider the most expensive option. We manufacture all Chromadek Signs. Signs with framework or just chromadek boards.

Make your logo bigger than life and communicate the strength of your company with a Corporate Identity. Building signs and lobby displays are but a few opportunities to communicate your brand to the public. Make that communication special with a unique display of your logo. For Corporate Identity, Building, Architectural and Directional Signs - nothing makes you stand out better than our 3-Dimensional Signage. To truly get noticed and break through the signage clutter - nothing is as effective as dimensional signage. When you want to show your class, show your customers your style - nothing is as effective as dimensional signage. At Cowan Signs, we offer routed signs. Dimension 200 Routers are a versatile small footprint router designed for dimensional sign making and engraving applications. This is the ideal router to easily create all varieties of ADA and interior signage, yet quite capable of routing larger shapes for outdoor dimensional applications.

Canvas

Modern Wall Art & Prints on Canvas... We don't mass produce our canvas prints. Instead we individually print and lovingly hand craft each canvas to order in our own factory. We believe our canvas wall art to be the very best quality available. We use only the highest quality cotton based canvas. Our canvas prints are carefully hand stretched on solid pine stretcher frames to give them a chunky modern look. Decorate your home or office or why not treat your friends and family - canvas makes a fabulous and highly original gift.

Car Magnetics

"Make a powerful visual impression wherever you drive—without applying permanent graphics to your vehicle. With custom-made magnetic signs, you can showcase your company name and logo mile-after-mile. Vehicle magnetic are great for: Delivery vans and trucks Personal service vehicles Cars that are used personally and professionally Temporary and promotional uses"

Contravision

Contra Vision® transform glass surfaces, enabling graphics and advertising messages to be visible from one side but not the other side, which remains see-through. In effect Contra Vision® can turn any area of glass into an advertising or promotional opportunity. In its most common form, Contra Vision® is applied to windows as a self-adhesive film. A graphic is printed on one side using a perforated hole, dot or line print pattern, with gaps in-between keeping up to fifty percent of the surface as see-through. The graphic is not seen from the other side because a layer of black is used to completely obscure the ink pattern, but not the areas of see-through. When looking at the side with graphics, the eye is drawn to the printed colours because they reflect more light than passes through the gaps in the ink patterns. From the other side, the view through the film is dominant because the black layer absorbs light.

Doming Stickers

Most people agree that Domed Labels are the biggest thing to have happened in the label industry for many years. No one knows more about doming than we do. Almost any label smaller than a business card size can be transformed by being domed. We can print and dome the complete job for you. You will be amazed at the transformation. Minimum quantities apply .

Computer Cut Vinyl

Computer Cut Vinyl is our most popular product. We only use 5-7 year Avery vinyl's, and cast vinyl for vehicle wraps. Vinyl can be applied to vehicles, chromodeck metal, abs plastic, Perspex, correx, etc... There is a wide range of colours to choose from. We can make from customised stickers to vinyl applied to large architecture boards. This is a very cost effective product. Cut out vinyl has a good finish as the letters or designs or individually cut and have no background.

Flatbed Printing

Turns orders around fast.

Wow your clients with incredible image quality.

Print on: (Flat Surfaces Only) Di-Bond, Correx, Forrex, Glass, Perspex, Abs, Chromodeck, Aluminium.

- Max width - 1500 mm
- Crop Marks
- Full colour (No white)
- UV Inks cured instantly
- Single sided / Double sided"

Promotional Signs

We specialize in custom signs, banners and other promotional products.

Maximizing your visibility to potential clients will increase your sales and propel your business to the next level. We offer flag banners to draw attention to your business from the roadside. Custom printed flags, teardrop flags, sharkfin banners are full colour quality flags. We create custom roll up banners, banner walls at affordable prices. Polyester table covers which can create a professional appearance for businesses attending conferences or expos. Professional canopy tents for businesses that will draw people to your displays. All snapper frames available too.

Safety Signs

Health & Safety at work is the responsibility of all personnel within a working environment.

The prevention of accident, injury or harm to an individual is the responsibility of managers, owners and/or occupiers. The provision of Health & Safety signing is vitally important to the process of ensuring that the individual is aware of the risks involved in a process and the measures to be taken to ensure safe working practices for all.

Slatz Board Systems

We have done slatz systems for various hospitals, shopping centres and large corporates.

This is very effective for navigation through large buildings. Easy to re-use individual slatz as info changes Cowan Signs is also a product supplier of all Vista Systems.

Stencils

A stencil is a template used to paint identical letters, numbers, symbols, shapes, or patterns every time it is used. Stencils are formed by removing sections from template material in the form of text or an image. This creates what is essentially a physical negative. The Stencil concept is used frequently in industrial, commercial, artistic, residential and recreational settings, as well as by the military, government and infrastructure management. A template is used to create an outline for the image. Stencils templates can be made from any material which will hold its form, ranging from Abs Plastic , Perspex , Dibond , Aluminium And Vinyl , depending on budget requirements .

Vista Systems

Vista System directories are fast, easy and simple to assemble and install. No need for special tools. They accept numerous insert materials and are low in cost. Used in most Airports, Train Stations , Shopping Centres . Create signs with a modern curved shape , Fast delivery , Cost efficient! Wide range of applications that cover the entire signage project. Can be used with many kinds of signage methods such as: vinyl, & digital printing, etc. Easily update; low cost to update the information without the need of a professional on site Dismantles easily for efficient shipping.

Wallpaper

Custom wallpaper printing allows you to create truly dramatic effects that give a space the exact look and feel you want! Your company reception or boardroom can have a dramatic floor-to-ceiling look showing your product. Retail stores can have custom wallpaper that strengthens their branding. Our custom wallpaper is printed on wallpaper vinyl with UV cured inks that are solvent free, washable.
